Konfiguracija elektronske pošte
(Microsoft Outlook)

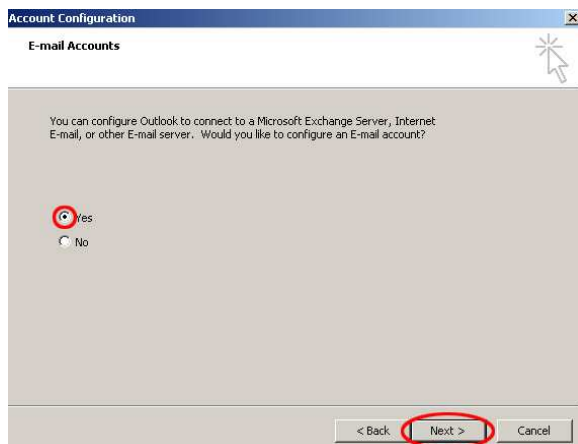

Da bi Microsoft Outlook pravilno funkcionisao potrebno je da pored vašeg korisničkog imena, znati i podatke o e-mail serverima. Te podatke dobili ste prilikom registracije i treba ih upisati u Microsoft Outlook.

1. Pokrenite Microsoft Outlook

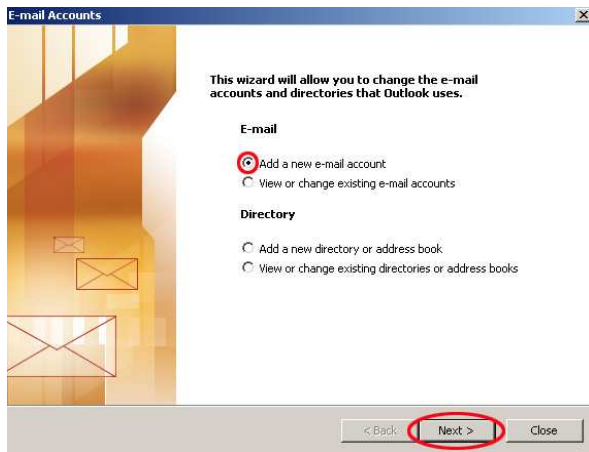

2. Ukoliko se Microsoft Outlook otvara prvi put nakon instalacije, pokrenuće se tzv. Outlook Setup, odnosno niz prozora koji vam pomažu da upišete potrebne podatke.

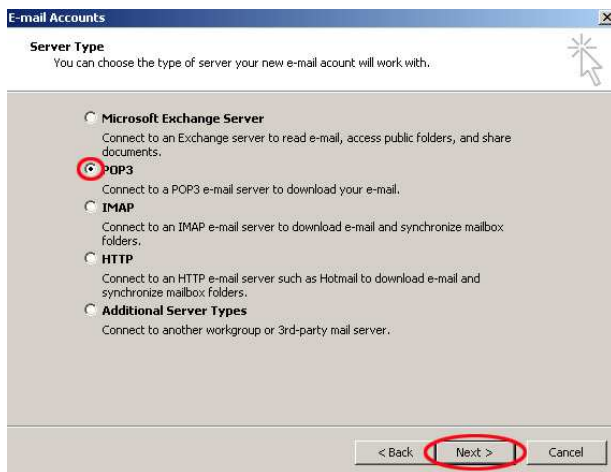

Kliknite **Next >**

Birajte **Yes**, zatim **Next >**

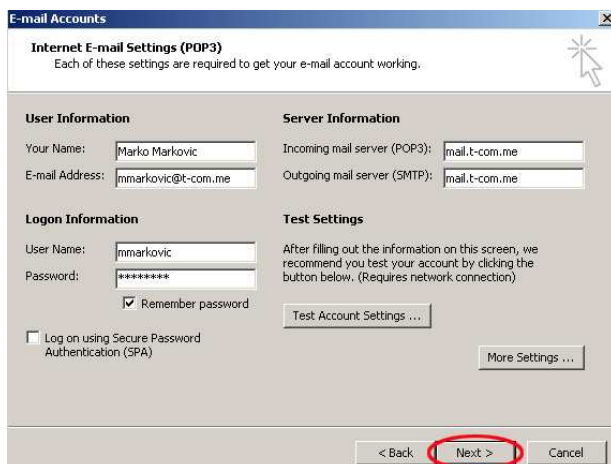

Kliknite prvo na **Add a new e-mail account**, a zatim na **Next >**

Birajte **POP3**, zatim kliknite na **Next >**

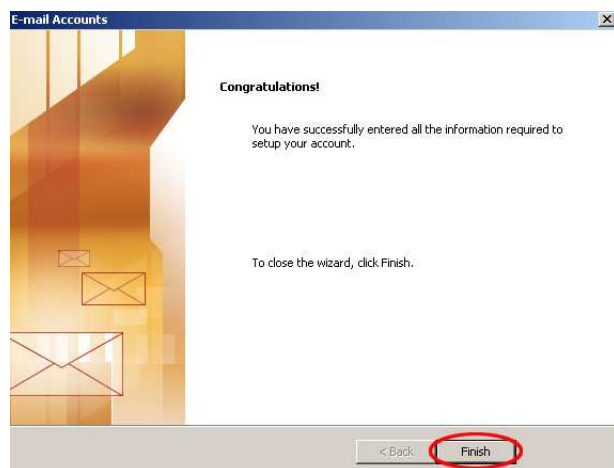

3. U **Your Name** unesite svoje ime i prezime (npr. Marko Markovic). U **E-mail Address** upišite svoju e-mail adresu kod Crnogorskog Telekom (taj podatak dobili ste pri registraciji), npr. mmarkovic@t-com.me. U **Password** upišite lozinku za primanje i slanje e-maila (taj podatak ste, takođe, dobili pri registraciji). Umjesto lozinke, na ekranu će se pojavljivati zvjezdice.

U **Incoming mail server (POP3)** upišite **mail.t-com.me**. U **Outgoing mail server (SMTP)** upišite **mail.t-com.me**.

Kliknite **Next >**

4. Otvara se prozor **Congratulations** sa obavještenjem da ste uspješno upisali parametre. Kliknite na **Finish**.

5. U cilju povećanja bezbjednosti mail sistema, uvodi se **SMTP** autentifikacija. Kliknite na opciju **Tools/ E-mail Accounts**

Nakon biranja kartice **Mail** selektujete ime vašeg naloga. Birajte **Change**.

Kliknite na karticu **More Settings...**

E-mail Accounts

Internet E-mail Settings (POP3)
Each of these settings are required to get your e-mail account working.

User Information
Your Name: Marko Markovic
E-mail Address: mmarkovic@t-com.me

Server Information
Incoming mail server (POP3): mail.t-com.me
Outgoing mail server (SMTP): mail.t-com.me

Logon Information
User Name: mmarkovic
Password: *****
 Remember password

Test Settings
After filling out the information on this screen, we recommend you test your account by clicking the button below. (Requires network connection)
Test Account Settings ...

Log on using Secure Password Authentication (SPA)

More Settings ...

U novom prozoru će se otvoriti dodatna podešavanja. Birajte **Outgoing Server** i štrikirajte **My outgoing server (SMTP) requires authentication**, odnosno opciju **Use same settings as my incoming mail server**.

Internet E-mail Settings
